MEET WITH A PROF begins next week! For a full list of Meet With a Prof Events, visit our website.

This Week and Next

Study Abroad to Enhance Your Career Development

Monday, February 1, 2016
2:00 pm-3:00 pm
Horizon Room, Career Services Center

Learn:
• How study abroad can contribute towards your career development
• How to translate these experiences onto your resume and into your interview and networking conversations

Snacks and refreshments will be provided

Tuesday
February 2

MEET WITH A PROF
Dr. Doug Magde is in the house (or the Student Affairs Office) from 1-2pm. Come ask him CHEM career questions.

Monday
March 4

DEADLINE TO DROP WITH A ‘W’
**Careers in Education**

**Date:** Tuesday, February 2, 2016  
**Time:** 12:00pm  
**Location:** Career Services Center Horizon Room  
[http://career.ucsd.edu/events.html#Grad/Prof-School-and-Interest-A](http://career.ucsd.edu/events.html#Grad/Prof-School-and-Interest-A)

This session will focus on the various types of career paths within the field of education: teaching, counseling, student affairs, and administration. It also will address the differences between types of graduate degrees and credentialing needed to pursue careers at the K-12 (elementary, middle, high school), community colleges, and university level.

**ACS Nuclear Chemistry Summer Schools**

Attention all outstanding undergraduates who might be interested in, and qualified for, the ACS sponsored Nuclear and Radiochemistry Summer School Program:

We are seeking curious and highly motivated students with strong science backgrounds. If selected, these students receive an all-expense paid opportunity to complete a 6 week summer course in Nuclear and Radiochemistry in either California or New York. They also earn hours (tuition paid) of undergraduate chemistry credit through either San Jose State University or SUNY-Stony Brook. Selected students also receive a stipend of $4,000.

Information and an on-line application form can also be found on the web at:

[http://chemistry.missouri.edu/nucsummer/index.shtml](http://chemistry.missouri.edu/nucsummer/index.shtml)

The deadline for applications is March 13, 2015

If you have any questions about the ACS sponsored program, feel free to forward any questions to the contact provided below:

J. David Robertson, University of Missouri  
robertsonjo@missouri.edu

**Meet Our New Student Worker**

Jessica is currently a second-year Roosevelt student at UCSD majoring in International Business. She hopes to pursue a career in marketing. Her favorite foods include pad thai, chocolate, and shrimp. One thing she cannot live without is her headphones. She works at the front desk of our Chemistry Student Affairs office most days and will be able to help you with scheduling appointments and general information about tutoring help, petitions, etc.
Marine Physical Laboratory
Summer Internship Program 2016

The Marine Physical Laboratory (MPL) is an organized research unit of the University of California, San Diego (UCSD) and lab at the Scripps Institution of Oceanography.

Originally established as a Navy-orientated research laboratory in 1946, MPL has maintained a strong multidisciplinary research program consisting entirely of sponsored projects, with a large sponsorship from the Department of Defense (DOD) and the National Science Foundation (NSF).

MPL is currently seeking applications for its 2016 Summer Internship Program. Applicants should be inquisitive and motivated first, second or third year undergraduate students with a strong background in quantitative science with majors in Marine Science, Applied Mathematics, Chemistry, Physics, and Engineering. Applicants must also be U.S. citizens or permanent residents.

Summer Intern salary will be $14.00 per hour, not to exceed 40 hours per week. This program lasts for approximately 10 consecutive weeks.

This internship is located at Scripps in beautiful La Jolla, California.

Deadline for applications is February 26, 2016. Visit https://scripps.ucsd.edu/mlp/mlp-summer-internship-program and follow the “Online Application” link to view requirements and submit your application online.

UCSD is an Equal Opportunity Employer, with a strong institutional commitment to excellence through diversity.
Beinecke Scholarship
Up to $34,000 for graduate study in Arts, Humanities, or Social Sciences
Due: February 5, 2016

Eligibility:
• planning to attend graduate school (masters or doctoral) for study in the arts, humanities, or social sciences
• U.S. Citizen
• minimum GPA 3.6
• Graduating between December 2016 and August 2017
• Financial Need (as verified by UCSD’s Financial Aid Office)

How to Apply:
• Read the website to make sure you’re eligible: http://fdnweb.org/beinecke/how-to-apply/
• Make an appointment with Dr. David Artis, to discuss your service project. You can schedule an appointment through his assistant, Charity Kunold (ckunold@ucsd.edu).
• Start speaking with 3 people who can write strong Letters of Recommendation to support your interest in graduate study
• Complete other items required for the scholarship (http://fdnweb.org/beinecke/how-to-apply/required-materials/)

Undergraduate Research Scholarships (URS)
$5,000 award for research projects in summer 2016
Due: February 1, 2016

Eligibility:
• current UCSD undergraduate, not graduating before Fall 2016
• US Citizen, permanent resident, or AB540 eligible under the “California Dream Act”
• must not be in a BS/MS program during the award period
• must not be planning to take classes or get paid through an alternate job during the award period
• ALL majors eligible

How to Apply:
• Read the website to make sure you’re eligible: http://urs.ucsd.edu
• Speak with letter of recommendation writer (your research mentor) ASAP and submit their name & email under each scholarship opportunity you wish to apply to (to be done after the General Application is complete).
• Complete the General Application, as well as “opportunity specific” questions for each scholarship you wish to apply to (you can apply to as many scholarships as you are eligible for). https://ucsd-research.academicworks.com

Deadline March 4th
Why is sleep so important?

Research shows that students who get at least 7 hours of sleep often perform better on exams than those that get less. Because sleep can affect our mood, learning and memory functions, as well as our immune system, it is important to establish good sleep habits. Establishing a relaxing bedtime routine will help condition your body to relax and fall asleep!

Come visit us in York Hall, 4010!
