Welcome to the CHEM Major!
Discover the Possibilities …

**CHEM 1:**
The Scope of Chemistry and Biochemistry

A 1-credit, P/NP Seminar for 1st-Year Undergraduates

**Winter Quarter 2019**

**Wednesdays, 11-11:50 AM**

Instructor: Prof. Stacey Brydges

Join us to learn about how you can achieve academic success as a CHEM major. We’ll introduce you to members of the chemistry community (peers, staff, faculty, alumni, and other professionals), and help you explore discipline-specific academic and co-curricular resources, programs, and opportunities, on and off-campus, that fit your needs and interests.

“CHEM 1 was more than I could have asked for. I recently declared chemistry as my major and this was a great introduction to chemistry resources on campus and what I can do with my degree.”
